Dear Sir/Madam

A30/A35 Exeter to Bere Regis Trunk Road Maintenance, Chideock Village

SWH/BBIS is the Managing Agent Contractor for Connect A30/A35 Limited, the concessionaire responsible for the operation and maintenance of the A30 and A35 between Exeter and Bere Regis, on behalf of Highways England.

As part of the maintenance strategy for the A30/A35, it is necessary to carry out some surfacing works in and around Chideock Village. The extent of these works will be between Chideock Hill and London Inn with the carriageway within the 30 mph speed limit being resurfaced. We would like to apologise in advance for any disruption these essential works may cause.

The works are programmed to commence on Monday 18th June 2018. The works will be carried using a full road closure which will remain in place from 20:00 to 06:00 for 5 nights a week for two weeks. There are no current plans for works on weekends or for any traffic management to be in place on weekends. Access to and from the village during hours of closure will be limited to one direction or the other depending on the location of the surfacing works within the village. Residents should approach the gatemen at the closure points who will endeavour to inform them the point of access. It should be noted that there will be no through traffic during the closure.

For the two weeks prior to these closures there will be works at night using two traffic signals so that utility covers and gully frames and covers can be reset.

All works are weather susceptible and may be subject to change due to circumstances beyond our control. We will endeavour to communicate any change in programme as soon as possible.

A dedicated phone line has been installed for customers who may wish to call and enquire about these works. If you have any queries please leave your name and number and if possible details of your query and we will contact you. The number is 01404 823871. Please do not hesitate to contact us if we can be of any further assistance.

Yours faithfully
For and on behalf of SWHBBISjv

Paul Mitchell
Operations Manager
